or several years past, has been in general use in St. Louis and elsewhere, in the upper Mississippi, has recently been induced to the notice of our citizens by Captain W. C. Postal, formerly the popular and efficient agent of the Memphis and St. Louis Packet Company. Many of our most reputable and intelligent merchants and business men have, at the request of Captain Postal, given this seal a fair trial, and pronounce it, for family use, equal to that mined in any other part of the country, and for manufacturing purposes, in many respects, superior, on account of the presence in it, in large proportion, of as fine carbon as ever yet has been afforded in the best charcoal. OFFICE OF THE DAILY APPEAL?

We would call the atention of our eaders to the statement of City Finances in our local column. It was made up to st \$1 50@1 75 per barrel. he 30th of Jone, but its publication has seen delayed, owing to the fact that a committee of citizens who were to exsmine into its correctness have taken unusual pains to go over the whole matter in order to give a just and accoratreport, which necessarily consum much time. The statement is a very favorable one, and justifies the confidence felt in our ability to pay off alindebteduess by capitalists abroad who have shown a desire to invest in our city bonds-\$150,000 of which have been taken on Eastern account within the last two or three days. We cannot pass this matter by without expressing the hope that our authorities will instantly institute legal proceedings to collect the smounts due the city from delinquents of all classes. It will be a further evidence that the finances of the city are looked reason whatever why any one, however large a property holder he may be, should be exempt from paying his dues to the corporation. We do not intend to let this matter rest until we have assurances that defaulters will be made to pay up, and we again call upon the proper authorities for the names of those who are behind hand that the public
